Subject: ESDC activities in the context of the Romanian Presidency of the Council of the European Union.

Your Excellency,

The recent successful conclusion of the course “Challenges of securing maritime areas for the European Union”, held in Constanța from 21 to 25 May 2019, offers me the opportunity to express my gratitude for the impressive efforts and resources made available by Romania in the context of the Presidency of the Council of the European Union.

The course, co-organised by the “Mircea cel Bătrân” Naval Academy and “Alexandru Ioan Cuza” Police Academy, in the framework of the European Security and Defence College, was held in the context of Romanian Presidency of the Council of the European Union.

As very well put it by one of the participants, the “European spirit” permeated the course, in one of the critical area of the European Union – its Eastern Maritime border – the Black sea, thanks to conjugated efforts of the Ministry of Defence and Ministry of Internal Affairs of Romania. I would like to highlight the excellent cooperation between the organising structures from these ministries, which showed a very pragmatic integrated approach to crisis that may manifest on the territory of the European Union. In particular, the live exercise at sea conducted by naval and air units and assets of the Coast Guard in cooperation with Constanța Port and municipal authorities helped participants visualise the scale of the cooperation between several ministries and organisations at the national and regional levels, a great occasion to gain an operational perspective on the issues discussed during the course.

Let me again take this opportunity to express my sincere appreciation for all Romania's efforts in support of the European Security and Defence College.

Yours faithfully,

Dirk Dubois
Head ESDC
